Summary

As a dedicated web developer with six months of experience in digital agencies, I specialize in creating innovative and efficient web solutions. My professional and personal projects reflect a strong commitment to continuous learning and technical excellence.

Key Projects:

- Gym Pass: currently working on it. Full stack gym management app build with React, supabase, react query, react router
- Mundus: A ReactJS app that pulls data from three APIs to provide detailed information about all countries, featuring maps and images.
- Image Recognition App: Full-stack app using a Machine Learning API, React, Express, SQL, and PostgreSQL.
- Gym Outlet: Built with React, Firebase, and Stripe for seamless payment integration.
- Client Website and CMS: Designed a responsive site and CMS with SASS, HTML5, MySQL, and PHP.
- Yoga Studio Website: Developed a site that boosted membership by 15%.
- Custom CMS: Created a CMS as part of my Cert IV assessment.
- Noctis Theme for VS Code: Developed a theme with 1million+ installs on VS Code Marketplace and 550+ stars on GitHub.

I am passionate about leveraging my skills to contribute to impactful projects and dynamic teams.
